MOUNT DIABLO STATE PARK TRAIL ADOPTION PROGRAM

Many people enjoy the trails at Mount Diablo State Park for a variety of reasons. We have pride in the access they provide to the beauty of the mountain and the surrounding views. It is not until a trail becomes blocked by a downed tree, over grown with vegetation, or the tread becomes difficult to negotiate that one thinks about trail maintenance.

To help with the challenge of winter storms and annual spring growth of vegetation we are initiating a Trail Adoption Program (T.A.P.) at Mount Diablo State Park.

WHAT IS INVOLVED??

Family members, friends, groups, and co-workers are encouraged to form a team that will agree to maintain a trail or a portion of trail for one year. In most cases the team can choose their trail. The Park will supply the trail tools needed to accomplish the work. Trail training will also be provided by the Park, or an experienced Crew Leader. The adopting group will work at it's own pace and schedule within a recommended time frame.

ADOPTERS RESPONSIBILITIES

Each team will appoint a Crew Leader for every ten members. The Crew Leader will act as a liaison between the team and the Trails Coordinator. The Crew Leader will demonstrate the ability to lead a Trail Crew in a safe responsible manner; and be familiar with trail maintenance guidelines and operations regarding volunteers. Training for Crew Leaders will be provided.

We ask that the trail be inspected two times a year. Once after winter to assess storm damage and once in late spring to monitor vegetation growth. The inspections will be followed up with a written log of findings to the Trail Coordinator. This log will help with scheduling work and deciding which tools will be needed.

FOR MORE INFORMATION ON THE TRAIL ADOPTION PROGRAM CALL THE TRAIL COORDINATOR, SUE AT (925) 837-6122

Sunrise and Sunset Times

This table provides times for Danville, California located at 38°N 122°W.

	Sunrise	Sunset
March 2004		
Saturday		
6	6:33 a.m.	6:09 p.m.
13	6:23 a.m.	6:16 p.m.
20	6:12 a.m.	6:22 p.m.

How to Read Trail Signs

Trail signs are located at the intersections of most trails. The arrow at the top of the sign indicates the direction of the trail you are currently using. The name is indicated with small letters underneath the arrow.

The name of the next trail, or trail intersection, that you will encounter is indicated with larger letters, displayed vertically. The distance to this trail or intersection is indicated at the bottom of the sign.

For example, this trail sign is located on Juniper Trail, with the Lower Summit parking lot .10 miles ahead.
